### Water Upon Request Application

*An ongoing Washington County Water Conservancy District  
Water Conservation Program*

#### Program Information

It is estimated 1.5 to 3 gallons of water is save per glass of water not served. However, the program not only saves participating restaurants water, but also time and money by eliminating the unconsumed glasses of water. Water Upon Request program distributes stickers to participating restaurants. The stickers indicate the restaurant supports conservation by serving water only upon request.

The district invites restaurants to display these stickers. These stickers can be easily applied on menus or are available in an electronic format.

#### Customer Information

Water Provider:		Account #:			
Restaurant Name:		How did you find out about the program ?			
Daytime Phone:		Restaurant Manager:			
Service Address:		City/Zip:
