

# GUIDE TO SEASONAL WATERING

## WINTER

November - February

# 1

DAY A WEEK

*\*Irrigation is typically not needed in December and January*

## SPRING

March - May

# 1-3

DAYS A WEEK

## SUMMER

June - August

# 3-5

DAYS A WEEK

## FALL

September - October

# 1-3

DAYS A WEEK

### WATERING GRASS? CYCLE AND SOAK

- Run 3 cycles per watering day
- 1 hour between each cycle
- 4 minutes for a fixed spray or 8 minutes for a rotating spray
- Monitor and adjust as needed

### WATERING PLANTS AND TREES? DRIP LOW AND SLOW

High flow (up to 20 gallons per hour)	12 minutes
Low flow (up to 4 gallons per hour)	30 minutes
Low flow (up to 2 gallons per hour)	60 minutes
Low flow (up to 1 gallons per hour)	90 minutes

Because every landscape and irrigation system is different, you may need to adjust this schedule. Variables such as soil, weather, flow rate, and plant type will affect irrigation needs.
